

ASO 02 - automatic wellington dryer

ASO 02 is a wellington dryer with forced air circulation and electric heating. The unit's principal construction enables a choice of sizes according to the required number of pairs of shoes to be dried. From 1 up to 4 separate drying units can be placed on the carrying frame and each is designed for five pairs of shoes. Each unit is equipped with its own fan to ensure sufficient air circulation. The air is heated by means of an electric heating body. The drying time is pre-set by means of switch clock. Air outlets are equipped with clacks that are automatically closed after putting shoes on.
