

BSAZ 5 - Wall module construction for WC with vandal-resistant st.steel cover

BSAZ 5 is a wall module for wall mounted toilets equipped with anti-vandal stainless steel cover ? with resistant stainless safety buttons. The cover is screwed by security bolts therefore it cannot be dismantled without special tools. The system is suitable for spaces where toilet flushing from a cistern is required but where, on the other hand, there is a threat of damaging of usual plastic covers. The robust anti-vandal stainless cover contains stainless control buttons resistant to damage (unlike the usual plastic buttons). The cover of BSAZ 5 is manufactured from the stainless steel AISI 304. Other materials (e.g. AISI 316) possible on order. For cleaning we recommend WÜRTH detergents ? material preservation (no. 0893 121 K) and material cleaning (no. 893 121 1).

Complete delivery

- 1. wall module with cistern
- 2. st.steel cover with vandal-proof buttons

Requirements for setting up the construction

- 1. Space for mounting the wall module
- 2. Water inlet G 1/2"
- 3. Waste pipe for outlet connection (DN 100)

Basic technical information	Dimensions of wall module	(1000?1200) × 510 × (160?200) mm
	Dimensions of st.steel cover	510 × 230 × 30 mm
	Water inlet	G 1/2"
	Outlet	DN 100
