

## BSK 01 - Safety combination set ( toilet + washbasin + drinking fountain )

Safety combination set BSK 01 includes a stainless steel toilet, wash-basin and drinking fountain and represents the best of our anti-vandal production. Anti-vandal design and stainless steel durability warrants long service life even in the toughest environments. This set cannot be broken and cannot be used to self-mutilation. Operation of the toilet, wash-basin and the drinking fountain is self-contained and it is possible to use all three appliances at the same time, even this is not very likely to happen. All three appliances are easily operated by separate safety press buttons that are connected to the electronics. The electronics ensures that the water flows only for the preconfigured period of time and not longer, even when the button is pressed. Each appliance can be set up for individual distribution of water which brings remarkable water savings. Entire set is manufactured from a high quality stainless steel. Sand-blasted finish ensures easy cleaning and maintenance of the set. There are two easy methods of mounting the set to the wall. The first method is anchoring the set from its side to the wall by safety screws. The second method is anchoring the set through the wall. All the water outlets and inlets are hidden inside of the set and are non-accessible to the user. Electronics is supplied with a.c. voltage of 12V, 50Hz from the source of power supply ZAC 1/50. Safety set BSK 01 can be adapted in sizes of the wash-basin and combinations of the appliances according to the individual needs of the customer.

Complete delivery

1. casing of the combination set with supporting frame
2. outlet valves ? 3 pieces (1/2?, 3/4?)
3. mounting hoses G 3/4?
4. connecting hoses ? 3 pieces
5. spherical valves ? 2 pieces
6. electronics
7. safety press buttons ? 3 pieces
8. fittings

Requirements for setting up the construction

1. Set-up water inlet, as per picture
2. Set-up outlet d = 110 mm

3. Set-up cable for power supply ? 12 V, 50 Hz from source of power supply ZAC (not part of the delivery)

Download information about the product

- [BSK 01 data for projectants - \( 35 kB \)](#)

Basic technical information	Water inlet	G 3/4?
	Water outlet	G 1/2? with sieve, nozzle
	Outlet	d = 110 mm
	Total dimensions	1000 x 1120 x 550
	Inner dimensions of the sink	370 x 330 x 130
	Weight	35 kg
