

AUM 021.1 - Rozsdamentes acél mosdó, el?kevert vízhez, AUM 3 típusú csappal ellátva

AUM 021 is a stainless steel washbasin with simple design and interesting price. Round inner corners ensure easy water flowoff from the sink. Delivery includes waste trap and all fixing material. Due to its resistancy to damage, it is intended for replacing ceramic washbasins in areas where higher endurance of material is required. Standard version does not include the opening for the tap. Opening can be made free of charge. Its diameter and location must be specify with the order. The washbsin can be fitted with the automatic tap AUM 3, supplied with 12 V from power supply ZAC or with 6 V from AA batteries. In standard version the washbasin has a brushed surface finish (possible sandblasted matt finish on order). The washbasin is manufactured from the stainless steel AISI 304. For cleaning we recomnend WÜRTH detergents ? material preservation (no. 0893 121 K) and material cleaning (no. 8931211).
